### TamaDex: (Q2 2023)

TamaDex (webversion) will be a multichain platform where we will list other projects and offer ad spaces and trending services. You can you can track your portfolio, prices of your favorite projects, and there will be a buy button, where you can buy and sell assets on every chain. In Q3 2023 we have a Tamadex App version live and ready on (IOS & Android)

From the listing, ad spaces and trending services fees 50% will go to our buyback & burn wallet, 40% will be allocated for development & team, 10% will be reserved for rewards of our 3rd NFT drop.

03

### P2E Game (Q4 2023)

Unlike traditional video games, where developers control all in-game economics, players in P2E games have ownership and control over their digital assets. You can even contribute to game decisions and help shape the future of the game through the accumulation of tokens.

We plan to launch a series of mini games where gamers can compete with each other for massive rewards in our native token \$SQT or BNB.
